

Don't forget to have your worksheet stamped at the front desk when you finish!

Entry Theater (Seymour Center Introduction) & Wall of Scientists

Don't try to answer while viewing tape, take quick notes and then go back to the questions.

1. Do we know all there is to know about the ocean? Explain. Why do you think that is so?
2. Why is marine science research so important? Give examples of how the ocean affects us.
3. What are several traits of a good scientist? What steps do scientists take when answering a scientific question?
4. How might being a scientist be rewarding?
5. What makes the Seymour Center important to the research community?
6. From the "Wall of Scientists," what do you observe about these marine scientists and the subjects they study? What are the similarities and the differences?
