Seymour Center at Long Marine Lab

BEAUTIFUL WHALES

Sunday, June 16, 2013 • Father's Day
1 PM

Bryant Austin

Photographer and Whale Conservationist

Join Bryant Austin, an experimental multi-media artist whose life-long passion has been exploring the depths of possibility in connecting humanity with the greatest minds in the water—whales. Austin's work represents the largest and most detailed photographs of whales in the world. He'll share the story behind creating these remarkable photographs and his efforts to use art to inspire people to take the future of whales—endangered throughout the oceans—into their hearts.

Sylvia A. Earle says in her foreword to his new book, Beautiful Whales, "As an ambassador from the ocean—and to the ocean—Bryant Austin is not only a source of inspiration. He is cause for hope."

Austin's book, Beautiful Whales is available in the Seymour Marine Discovery Center's Ocean Discovery Shop. He will be available to sign copies of his book immediately after his talk.

Free with admission to the Seymour Center
(\$6 Adults / \$4 Students or Seniors)

FREE ADMISSION
for Seymour Center Members and UC Santa Cruz
Undergraduates with valid Student ID.

At the end of Delaware Avenue, Santa Cruz
(near Natural Bridges State Beach)
