Come learn about California’s 1,100-mile ever-changing coastline. This new book features 150 of the best photographs from this scientifically valuable, yet truly artistic collection of more than 80,000 images taken by Kenneth and Gabrielle Adelman. Oceanographer Gary Griggs and architect Deepika Shrestha Ross provide insightful narrative, describing the natural features, their changes over time, and human efforts to tame them.

Public $8; Members $6
