

SQUIDTOONS

Exploring Ocean Science with Comics

For the first time ever, presented to the public, the Seymour Center premieres *Squidtoons*. This exhibit consists of beautifully drawn, large-format educational comics combining fun science facts, kid-friendly wit, and a strong environmental message.

Squidtoons presents real ocean science in a series of entertaining, easy-to-understand comic panels that will be on display throughout

our aquarium for the next year. Venture from the seashore to the deep sea, and learn about the ocean's diverse life forms.

Squidtoons creator Garfield Kwan will be at the Seymour Center on November 11, 2018 to discuss his exhibit and book.
