

CLOTHESPIN SHARK

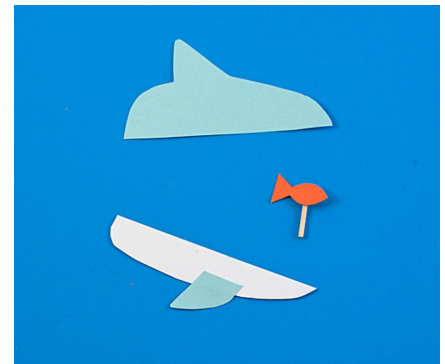

Items Needed

- [Shark and fish template](#)
- Blue, white or light grey, and orange crayons or colored pencils
- Grey washable marker
- Clothespin
- Toothpick
- Glue stick
- Tape
- Scissors

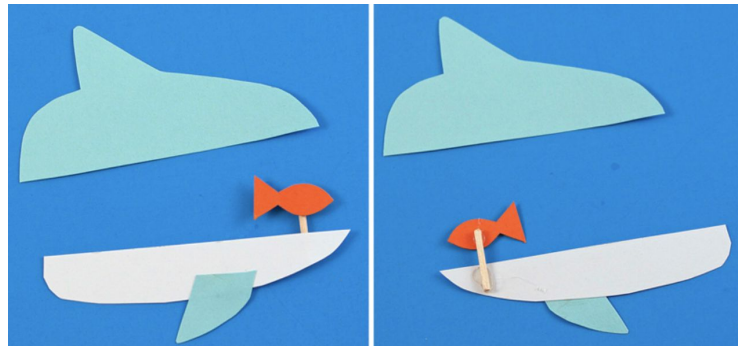

Step 1. Print the [shark and fish template](#). Cut out the shark's top, bottom, and fin. Color the shark's top and fin blue. Color the shark's bottom white or light grey. Cut out the fish and color orange.

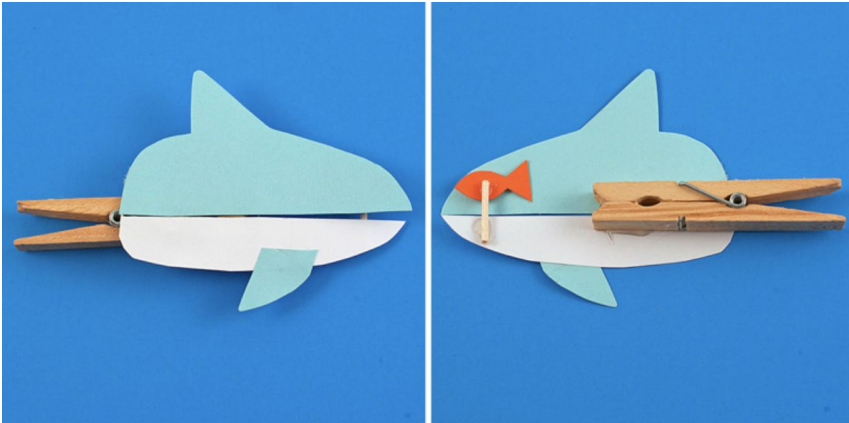

Step 2. Cut or snap the toothpick in equal halves. (*Tip: Ask an adult for help!*) Tape the toothpick to the back of the orange fish. Glue the fin to the bottom of the shark.

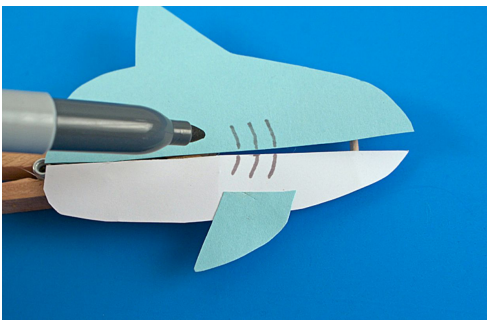

Step 3. Glue the bottom of the toothpick to the shark's bottom, about half an inch from the edge.

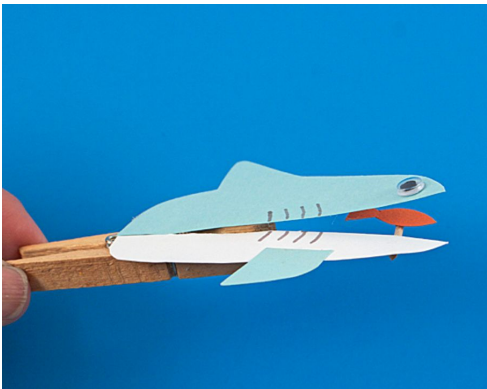

Step 4. Glue the shark body pieces to the clothespin, starting at the spring. Leave the handle end exposed.

Step 5. Use a grey washable marker to draw gills and eyes.

Step 6. Slightly bend the white part of the shark so when you open and close the mouth, the small fish doesn't hit the top of the shark.
